

MONTENEGRO

K.D. SLOGA-ROŽAJE

1986

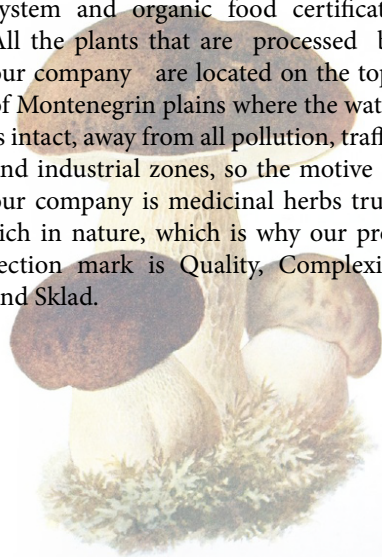

O nama:

Firma K.D.SLOGA se nalazi na sjevero-istoku Crne Gore u gradu ispod Hajle i na valima rijeke Ibar. Firma se dakle, nalazi u opštini Rožaje. Osnovana je 1986. godine radi obavljanja djelatnosti otkupa, prerade i izvoza najkvalitetnijih šumskih plodova iz Crne Gore širom Evrope. Naša firma se bavi otkupom, preradom i izvozom vrganja, smrčka, lisičarke, crne trube, borovnice, maline, divlje jagode, kleke i šipurka. Dakle, bavi se otkupom i preradom kako šumskih plodova tako i kultivisanog voća.

Šumski plodovi rastu slobodno u prirodi te su iznimno bogati vitaminima, vlaknima i moćnim pigmentima, da bi se sačuvao kvalitet iz najčistijih planinskih predjela, potpuno zdravu hranu firma SLOGA, sakuplja, prerađuje i izvozi na prostorima Evrope, Italije, Austrije, Slovenije, Njemačke, Švajcarske i mnogim drugim zemljama. Pored izvoza u svježem stanju, SLOGA posjeduje u svom vlasništvu modernu fabriku bogato opremljenu za preradu i pakovanje šumskih pečuraka, šumskog i kultivisanog voća, gdje prerađuje i pakuje svu robu u svježem-zamrznutom, suvom, kuvanom stanju u skladu sa sistemom i kvalitetom ISO i sertifikatom za organsku hranu. Svo bilje koje otkupljuje i prerađuje naša firma se sakuplja na vrhovima crnogorskih planina, gdje je priroda netaknuta i udaljena od svih oblika zagađenja, saobrćaja i industriskih zona, zato je lajtmotiv naše firme „ ljekovito istinito blago podareno iz prirode“ a naš zaštitni znak jeste kvalitet, složnost i sklad.

About us:

The company Sloga is located in the north-eastern part of Montenegro in the city of Hajle. The company was founded in 1986, in the activities of purchasing, processing and exporting the best quality fruits from Montenegro throughout Europe. Our company is also involved in the collection, processing and export of thorns, spruce, cloves, black currants, blueberries, raspberries, blackberries, wild strawberries, plum and syrup. Forest fruits grow freely in nature and are extremely rich in vitamins, fibers and powerful pigments. In order to preserve their quality, Sloga company collects, processes and exports on the territory of Europe, Italy, Austria, Slovenia, Germany, Switzerland and many other countries. In its ownership, Sloga has the latest machines for processing and packing of forest cucumbers and forest fruits in fresh, frozen, dry and cooked state in accordance with ISO quality system and organic food certificate. All the plants that are processed by our company are located on the tops of Montenegrin plains where the water is intact, away from all pollution, traffic and industrial zones, so the motive of our company is medicinal herbs truly rich in nature, which is why our protection mark is Quality, Complexity and Sklad.

SVJEŽI VRGANJ

(boletus edulis)

FRESH PORCINI

Najkvalitetniji sveži vrganj sakupljen sa najčistijih planina, prerađujemo i pakujemo u drvenoj ambalaži. Naši proizvodi od svežeg vrganja su: cijeli vrganj sa zemljom, polovine očišćene od zemlje i cijeli vrganj bez zemlje.

The best quality fresh porcini collected from the cleanest mountains, we process and pack in wooden packaging. Our products from the fresh porcini are: whole bark with soil, half cleaned from the ground and whole bark without soil.

SUVI VRGNJ

(boletus edulis)

DRY PORCINI

Suvi vrganj dobijamo postupkom sušenja u savremenim sušarama. Suvi vrganj daljom preradom klasificiramo po klasama. Takodje, vršimo i preradu prirodno sušenog vrgnja.

The dry porcini is obtained by the drying process in modern dryers. The juice is further classified by further processing. By the way, we also process the naturally dried horn.

KUVANI VRGANJ
ww

(boletus edulis)

COOKED PORCINI

Procesom kuvanja dobijamo kuvani vrganj koji svoj ukus zadržava tako što se kuva u tradicionalnim kazanima po propisanim uslovima kuvanja i čuvanja. U našoj ponudi je zdrav, kvalitetan, očuvan, najljepši i najkvalitetniji crveni vrganj, bijeli (šumski) vrganj, kao i kocke i polovine preradjenog vrgnja.

In the process of cooking, we get a cooked brew that keeps its taste by cooking it in traditional boxes according to the prescribed cooking and storage conditions. In our offer, there is a healthy, quality, preserved, finest and best quality red rib, white (woody) porcine, as well as cubes and half processed tongue.

ZAMRZNUTI VRGANJ (boletus edulis) FROZEN PORCINI

Da bi dobili najkvalitetniji, najčistiji i najbolji zamrznuti vrganj, vršimo preradu uz najveću pažnju u savremenim prostorijama naše fabrike. Procesom zamrzavanja i dalje prerade vrgnja dobijamo naše proizvode koji izlaze u obliku cijelog zamrznutog vrgnja, polovine vrgnja, laminat i kocka obradjenog vrgnja.

In order to get the best quality, cleanest and best frozen porcini, we process processing with attention in the modern premises of our factory. The process of freezing and further processing of the tongue gives us products that come out in the form of a whole frozen porcini, half a tumbler, a laminate and a cube of processed porcini.

LISIČARKA

(chantarellius cibarius)

CHANTERELLE

Naša ponuda je bogata još jednim zdravim šumskim plodom-lisičarkom. Lisičarku preradjujemo na više načina, pa tako naši proizvodi od lisičarke se nalaze u svežem, suvom, kivanom i zamrznutom stanju. Garantujemo kvalitet!

Our offer is rich with another healthy chanterelle. We are processing lollipops in many ways, so our products from the fox are in fresh, dry, cooked and frozen condition. We guarantee quality!

KUVANA LISIČARKA (chantarellius cibarius) CHANTERELLE

Procesom kuvanja dobijamo kuvanu lisičarku koja svoj ukus i kvalitet zadržava tako što se kuva u tradicionalnim kazanima po propisanim uslovima kuvanja i čuvanja.

In the process of cooking, we get a cooked brew that keeps its taste by cooking it in traditional boxes according to the prescribed cooking and storage conditions.

SMRČAK

(morchella conica)

MOREL

Smrčak kao jedna od najkvalitetnijih i najcjenjenijih vrsta kod nas zauzima posebno mjesto, sa posebnom pažnjom vršimo otkup i preradu a sve u cilju zadovoljenja kupaca. U našoj ponudi imamo: sveži, suvi i zamrznuti smrčak.

Morel is one of the best and most sought after species in our country, with special attention we buy and process everything in order to satisfy our customers. We offer: fresh, dry and frozen morel.

CRNA TRUBA

(Craterellus cornucopioides)

Crnu trubu kao jednu jako kvalitetnu vrstu sakupljamo iz netaknutih prirodnih predjela, daleko od saobraćajnih i industrijskih centara. U našoj ponudi imamo :svežu, suhu i zamrznutu crnu trubu.

Craterellus cornucopioides is collected from untouched natural areas away from traffic and industrial centers. We offer: fresh, dry and frozen Craterellus cornucopioides.

BOROVNICA

(*Vaccinium myrtillus*)

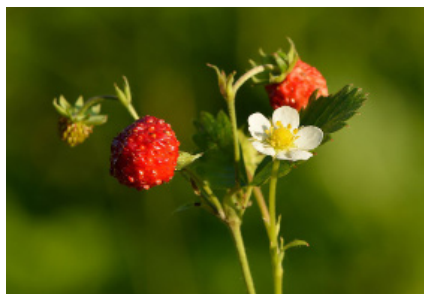

BLUEBERRY

U našoj ponudi imamo i u narodu poznat „crni dijamant“ borovnica kao vrsta šumskog voća je veoma vrijedna, a u sebi sadrži veliki broj veoma vrijednih elemenata i vitamina. Borovnicu koju mi sakupljamo i prerađujemo dolazi sa najvišočijih planinskih vrhova. U našoj ponudi imamo: svežu i zamrznutu čistu borovnicu, svežu i zamrznutu borovnicu sa listom.

In our offer, we also have a famous “black diamond” - a bloodbath as a kind of forest fruit is very valuable, it contains a lot of very valuable elements and vitamins. The barrel that we collect and process comes from the highest mountain peaks. In our offer we have: fresh and frozen blueberries, fresh and frozen blueberries with a list.
